

AMENDMENT TO CLAIMS

Please amend claims of the instant application as follows:

1. (Original) A pulse generating device comprising: control means for receiving vehicle speed information or wheel speed information via a multiplex communication line from a control device mounted on a vehicle, and for generating, based on said vehicle speed information or said wheel speed information, a predetermined pulse signal that can be used for an information display device mounted on said vehicle; and output means for outputting said pulse signal generated by said control means, to said information display device.

2. (Cancelled)

3. (Original) A pulse generating device according to claim 1 or 2,
wherein said control means outputs said pulse signal according to the running state of said vehicle.

4. (Original) A pulse generating device according to claim 1,
wherein said information display device is a navigation unit.

5. (Original) A vehicle display apparatus for displaying vehicle information, including a pulse generating device comprising: at least control means for receiving vehicle speed information or wheel speed information via a multiplex communication line from a control device mounted on a vehicle, and for generating, based on said vehicle speed information or said wheel speed information, a predetermined pulse signal that can be used for an information display device mounted on said vehicle; and output means for outputting said pulse signal generated by said control means, to said information display device.

6. (Original) A vehicle display apparatus according to claim 5,
wherein said control means outputs said pulse signal according to the running state of said vehicle.

7. (Original) A vehicle display apparatus according to claim 5,
wherein said information display device is a navigation unit.
